SCHOOL HEALTH SERVICES

Greetings From Your School Nurses

Welcome to the 2020-2021 school year! We are excited to welcome our students back to school. As always, the health, safety, and well being of our students and staff is a top priority. We are working diligently and collaboratively to ensure that the proper safety guidelines are being followed. Please know that prior to your child attending on site learning, you will be given more information regarding our new health and safety procedures.

As per CDC, Mass DPH, and Department of Elementary and Secondary Education guidelines there are protocols that must be followed.

PLEASE do not send your student to school if they have ANY of the following:

- Fever 100.0 F or higher, chills, or shaking chills
- Cough (not due to other known cause, such as chronic cough)
- Difficulty breathing or shortness of breath
- New loss of taste or smell
- Sore throat
- Headache, *when in combination with other symptoms*
- Muscle aches or body aches
- Nausea, vomiting, or diarrhea
- Fatigue, *when in combination with other symptoms*
- Nasal congestion or runny nose (not due to other known causes, such as allergies) *when in combination with other symptoms*

If your student presents to the Health Office with any of the above symptoms, please be advised that a phone call will be placed to dismiss your student. You will be advised at that time what the appropriate measures are to have your student return to school safely. While awaiting dismissal, your student will be placed in a separate waiting area with proper supervision.

More health information will be sent to families in the following weeks. Thank you for your continued support and patience as we work together during these challenging circumstances.
