A Word About Vacations

If you will be keeping your child out for a family vacation, your child will be responsible for making up any work they have missed. Work is NOT given out in advance. (see school handbook) Please let your child's teacher know the dates involved.

*March, April and May are MCAS months, so please be mindful of the testing dates if you have a 3rd 4th or 5th grade student.

- Karina Sousa, our School Psychologist is on staff to work with students in individual and small group settings. Our school psychologist can also work with families to find services to assist a family in need. Ms. Sousa can be contacted by calling the school's main number, 508-324-3160.
- You can email any of our staff by using their first name.last name@somersetschools.org

Student Services and Information

For the safety of all students and staff:

- All exterior doors are kept locked during the day. When visiting Chace, please enter ONLY through the main office and sign in with the secretary.
- You will be asked for ID if picking up a student.
- We also have multi-security cameras installed throughout the building.
- Please do not approach students who are outside at recess or gym. Students are told not to approach anyone, even someone they know, when they are outside. Please come to the office if you need to see your child.
- Children will only be released to custodial parents and those on the emergency form. You must provide a note if your child is to be release to anyone else.

Security at School

It is the policy of the Somerset School Department to cancel school only in the most severe weather conditions.

In the event of a school delay, parents are expected to use their own judgment in sending children to school.

Announcements will be made through the OneCall Now System, as well as on local radio and television stations.

When a ninety (90) minute delay in opening of schools is made, elementary schools start at 10:20 a.m. School opens for the arrival of students at 9:50 a.m. Expectations for buses to pick-up students would be approximately ninety (90) minutes later than the accustomed time.

In Case of Snow or Emergencies...
